

Technical Data Sheet

Epoxy Resin KER-215

"KER" Grades	EGC (mmol/kg)	WPE (g/eq)	Viscosity at 25°C(Pa.s) ¹⁾	Color (Pt/Co)	Hydrolisable Cl (mg/kg)
KER 215	4800~5200	192~208	0.7~1.1	MAX 100	-

Diluted with mono-functional epoxidised alcohol, low viscosity resin

Substance chemical family:

Reaction product of bisphenol A and epichlorohydrin Epoxy resin industrial grade , none hygienic grade

Uses and restrictions:

KER-215 are used mainly in the manufacture of Industrial coating ,Anti corrosion coatings Solvent-born paints, PCM (Coil) coating , printing wiring board and molding .

Packaging: 200 Kg Drum

Origin : Korea
